

# Hello

## MY NAME IS JANET

My gorgeous grandson was able to be cared for in a small, safe, homely and nurturing environment. He benefited from all that the local community offered ; mainly music, library visits, playgroups, beautiful beaches and playgrounds.

## ABOUT ME

Hi, my name is Janet Carter, I am a mother of three grown-up children and a grandma to six mokopuna. I have done home-based care since my youngest was a baby and she is 29 years old now!!! I did have a break in order to work in a preschool whilst studying for my Bachelor of Education (ECE). I enjoyed the experience and gained a lot of new knowledge.

## MY HOME-BASED CARE

When my first grandson was born the plan was that he would attend a daycare centre. I gained a position at a daycare and soon realised that home-based care, was the way to go. So I returned to home-based care with my newly gained knowledge and experiences to set up a home environment that provided optimum learning opportunities for the children. My gorgeous grandson was able to be cared for in a small, safe, homely, and nurturing environment. He benefited from all that the local community offered; mainly music, library visits, playgroups, beautiful beaches, and playgrounds.

## FAMILY BONDS

Even though I will soon be surplus to requirements as a stay at home Grandma, I will continue to provide home-based care, as that is where my passion is. It is great to be able to build strong relationships with the children and their families. This enables me to ensure the children are reaching their full potential and their individual interests are being met. Of course lots of fun plays a big role too :) I look forward to having the great privilege of getting to know more of your beautiful, treasured children.
